Summary

- Experienced software developer with 2 years of experience creating functional and visually stunning applications while improving user engagement by 40% in 9 months.
- Skilled in python, JavaScript, Mongodb, React, Nextjs, Node and Express(MERN Stack)
- Passionate educator with 2 years of experience teaching science and mathematics, driving student performance by 30% in 1 year.
- Dedicated to maximizing learning opportunities through real-world examples.

Work Experience

Freelance Full-stack Developer, Freelance   01/2021 - Present

- Developed user-facing features using web technologies such as html, CSS, and JavaScript to create responsive, interactive and visually appealing interfaces.
- Collaborated with a team to build an e-commerce website, developing responsive frontend interfaces using React + Vite and Tailwind CSS, resulting in a 30% increase in mobile conversion rates; implemented UI enhancements and received positive client feedback for delivering the project ahead of schedule and exceeding performance expectations.
- Collaborated with a graphic designer to implement a pixel-perfect frontend for a portfolio website, utilizing Nextjs and Tailwind CSS for cross-browser compatibility, optimizing performance for a 40% reduction in page load times, and demonstrating strong communication skills to ensure high client satisfaction and repeat business.

React/Flutter-Engineer, Dropify Technologies   01/2024 - 04/2024

- Built a responsive React web app that boosted conversion rates by 25% and generated a 20% increase in online sales, contributing to company revenue growth.
- Utilized Builder.io, a no-code platform, to streamline the UI development process by creating dynamic and customizable components without writing code, resulting in significant time savings and improved collaboration with designers.
- Conducted thorough testing of the application, including unit tests and widget tests, to ensure UI responsiveness, data accuracy, and overall application stability across different devices and screen sizes.
- Implemented automated testing for 2 React projects, reducing bug resolution time by 40% and ensuring high-quality, reliable applications.

Kosi Bethel International School, Science Teacher   01/2020 - 01/2021

- Taught mathematical skills and physics principles to high school students using real-world, application-based examples to maximize learning opportunities.
- Increased students' average test scores by 15% through implementing interactive and hands-on science experiments, leading to improved academic performance and engagement.
- Implemented a curriculum that resulted in a great increase in student retention and improvement in standardized test scores, enhancing the overall academic performance of the school.

Education

B.Eng. in Computer Engineering
Federal University Oye Ekiti • GPA: 2nd Class Upper   01/2021 - 01/2024

B. Tech in Physics Electronics
Federal University Of Technology • Minna, Niger State   01/2012 - 12/2018

Certifications

Software Engineering- Backend Specialization   07/2023 - 07/2024
ALX Africa

The AI Career Essentials (AiCE)   03/2024 - 04/2024
ALX AFrica

Frontend Development Libraries   12/2023 - 01/2024
FreecodeCamp.org

Responsive Web Design   04/2023 - 05/2023
FreecodeCamp.org

Career Essentials in Software Development by Microsoft and LinkedIn   04/2023 - 05/2023
FreecodeCamp.org

Skills

Technical Skills: HTML, CSS, Javascript, Git, Mysql, Postgress, Mongodb, Node, Nextjs, Python, Reactjs, TailwindCSS, WordPress, Microsoft Office Suits, Google workspace.

Soft Skills: Adaptability, Attention to Detail, Continuous Learning, Critical thinking, Effective Communication, Empathy, Operational Efficiency, Presentation skills, Problem-solving, Productivity, Teamwork and Collaboration, Time Management

Vocational Skills: Digital Photography, Graphics Design, Systems Hardware Management, System Software Management
